AN ORDINANCE AUTHORIZING NORTHWESTERN LIGHT AND POWER COMPANY, ITS SUCCESSORS AND ASSIGNS TO CONSTRUCT, OPERATE AND MAINTAIN AN ELECTRIC LIGHT AND POWER SYSTEM IN THE VILLAGE OF MOUNT PROSPECT, IN COOK COUNTY, ILLINOIS:

BE IT ORDAINED by the President and Board of Trustees of the Village of Mount Prospect, Illinois:

Section 1. That the right, permission and authority be and the same are hereby granted to Northwestern Light and Power Company, its successors and assigns (hereinafter referred to as the "Grantee"), to construct, maintain and operate in the Village of Mount Prospect (hereinafter referred to as the "Municipality"), in the State of Illinois, a system for the distribution and sale of electricity for lighting, heating and power purposes, and to construct, maintain and operate all necessary poles, wires conduits, and apparatus necessary or convenient for such system in, upon, along, across and under each and all of the streets, alleys, avenues, and other public places in said Municipality, subject to the conditions and regulations hereinafter set forth.

Section 2. All poles and wires erected under this grant shall be placed in alleys whenever practicable so to do, and shall be so placed whether on streets, alleys, avenues or other public places as not to interfere unnecessarily with travel on such streets, alleys, avenues, and other public places, and shall be erected under the supervision of the Committee on Streets and Alleys of said Municipality or under such other supervision as the Board of Trustees of said Municipality may from time to time provide. All poles erected under this ordinance shall be not less than twenty-five (25) feet in height, and shall be so located as not to injure unnecessarily any drains, sewers, catch-basins, water pipes, or other like public improvements, but should any pavement or any drain, sewer, catch-basin, water pipe or other like public improvement be injured by such location, said Grantee shall forthwith repair the damage caused by such injury to the satisfaction of the Committee on Streets and Alleys of said Municipality, and in default thereof said Municipality may repair such damage and charge the cost thereof to, and collect the same from, said Grantee.

All abandoned poles shall be removed as soon as the service is discontinued. All poles shall be set in straight lines so far as possible, and all overhead wires, conductors and cables shall, so far as possible, be kept at least twenty (20) feet above the level of the ground.

Said Municipality shall have the right to the use of one cross arm on the poles of said Grantee for the police and fire alarm service wires of said Municipality, provided that the same shall be so placed and maintained by the said Municipality under the direction of said Grantee, so as not to interfere with the wires of said grantee, its successors and assigns.

Said Grantee shall be subject to all reasonable regulation which may now or hereafter be required or provided for by said Municipality in relation to the use of the public streets, alleys, avenues and other public places of said Municipality.

Section 3 - when at any time hereafter any house or building shall be moved by the permission of said Municipality or its proper officers along, across or upon any of the streets, alleys or avenues of said Municipality, the said Grantee, its successors or assigns, shall upon receiving notice from said Municipality to that effect and within twenty-four hours after receiving such written notice, so cut, remove or adjust its said wires or poles that the same will in no way interfere with the moving of any such house or building, provided, however, that such cutting, moving and adjusting of said wires and poles be done at such time of the day or night as will least interfere with the public use by said Grantee of such wires and poles for the benefit of the inhabitants of said Municipality, and the successful operation of its plant. All questions as to the time when said wires and poles shall be cut, removed or adjusted for the purpose aforesaid, shall be decided by said Municipality, and such decision shall be final.

Section 4 - Said Grantee shall indemnify, become responsible for and forever save harmless said Municipality from any and all damages, judgments, decrees, costs and expenses, including attorney's fees, which said Municipality may legally suffer or incur or which may be legally obtained against said Municipality for or by reason of the use and occupation of any street, alley, avenue or other public place in said Municipality by said Grantee pursuant to the terms of this Ordinance, or legally resulting from the exercise by said Grantee of any of the privileges herein granted, and, as an additional security therefor, said Grantee shall, during the life of this Ordinance, keep on file with the Village Clerk, a good and sufficient bond in the sum of Five Thousand Dollars (\$5000.00) conditioned to protect and indemnify said Municipality as in this section provided, and said bond shall be subject to the approval of the Board of Trustees of said Municipality, and said Municipality shall have the right from time to time, whenever in the opinion of said Board of Trustees the same may be necessary, to require said Grantee to renew or provide additional or other security on said bond.

Section 5 - In consideration of the rights and privileges herein granted, said Grantee shall, during the term of this grant furnish to the said Municipality annually, free of cost and expense, electricity for lighting buildings owned by said Municipality only, not exceeding, however, 400,000 watt hours, the cost of installing and all electrical equipment required in said buildings, or any of them, to be borne by said Municipality. If said Municipality shall, in any year, require electricity in excess of 400,000 watt hours, for the purpose of lighting said buildings or for any other municipal purpose,

exclusive of lighting the streets of said Municipality or of pumping the water into the water system of said Municipality, then in that case the Municipality shall pay for such excess at the rate of Nine (9) cents per kilowatt hour, without discount.

Section 6 - The rate to be charged by the said Northwestern Light and Power Company, its successors and assigns, for furnishing electrical service to any consumer shall not exceed Twelve (12) cents per kilowatt hour for all electricity consumed in each month up to and including an amount that would be equal to thirty hours' use of the consumer's maximum demand in such month, and eight (8) cents per kilowatt hour for the electricity consumed in such month in excess of that amount. All bills shall be rendered monthly, as nearly as practicable, and on each bill paid within ten days after its rendition the consumer shall be entitled to a discount of one cent per kilowatt hour on the total consumption charged for therein, provided, however, that if payment shall not be made within ten days, said Grantee shall not be required to allow said discount.

If any Consumer shall fail to pay any bill within Twenty (20) days after its rendition, the said Grantee may cut off the electrical service to such consumer until all arrears, including cost of shutting off and of reconnecting for resumption of service, shall be fully paid. The consumer's maximum demand shall be ascertained by a maximum recording meter, except where the maximum capacity of his installation is five kilowatts or less, in which case it may be estimated by the said Grantee at or within such maximum capacity.

Section 7 - All rights and privileges granted by this Ordinance are granted for the term of Fifty (50) years from and after the acceptance of this Ordinance as hereinafter provided.

Section 8 - The Grantee shall have the right to remove its meter from the premises of any consumer connected with its wires, and to discontinue its service, whenever the net amount of any monthly bill for consumption in said premises shall not exceed fifty (50) cents unless such consumer shall agree to pay a minimum charge of fifty (50) cents a month for each meter. In the event connections are to be made where the intermediate distance is more than Five Hundred (500) feet the cost thereof shall first be borne by the owner of the property so connecting.

Section 9 - After the passage and approval of this Ordinance and within thirty (30) days after such approval, this Ordinance, if accepted, shall be accepted by said Grantee by its filling with the Village Clerk of said Municipality, an unconditional written acceptance thereof, to be duly executed according to law, and a failure of said Grantee to so accept this Ordinance within said period of time, shall be deemed a rejection thereof by said Grantee, and the rights and privileges herein granted shall, after the expiration of said period of thirty (30) days, if not so accepted, absolutely

cease and determine, unless said period of time shall be extended by the said Municipality by Ordinance duly passed for that purpose and before the expiration of said period of thirty (30) days.

Section 10 - all provisions of this ordinance which are obligatory upon, or which inure to the benefit of said Northwestern Light and Power Company, shall also be obligatory upon and shall inure to the benefit of all successors and assigns of said Northwestern Light and Power Company, and the word "grantee" wherever used in this Ordinance shall include and be taken to mean not only said Northwestern Light and Power Company, but also all successors and assigns of said Northwestern Light and Power Company.
